Demonstration Speech.

**Assignment:** You will become the teacher and demonstrate a process to the class. Your goal is to teach the audience how to perform or explain how a process works. You will take us through the different stages of the process, from the preparation and materials needed to start, to the actual process itself, and finally the finished product. Lastly you'll need to explain to us the benefit we gain from knowing this process.

**Example topics:**
- How to Carve a Duck
- How a Hummingbird Hovers.

**Audience:** For this assignment you must assume your audience knows nothing about your process and your goal is to explain it to them in a way they can understand and learn how to do the process by the end of your speech.

**Time:** The time limit for the speech is four to six minutes in length,

**Special requirements:** A visual aid is required for this speech. Without a visual aid the highest grade you can achieve is a D.

You're expected to perform this speech without the use of note cards. Any sources you utilized must be cited verbally in the speech and on paper in a work cited page.

In addition to your speech you must turn in a full sentence typed MLA compliant outline (as exampled in our textbook)

Your speech will be graded by the rubric explained in our syllabus. Your outline will be graded on spelling, grammar, proper format and alignment.
